- Confidently interfaces with library vendors and evaluate products.
- Provides exceptional customer support for devices and online resources.

LIBRARIANSHIP

Leadership, Core Library Services, Collections, Professionalism

- Strong information management, reference and readers' advisory skills.
- Experience with material selection and collection development.
- Customer focused with a well rounded understanding of the services libraries provide.

WE'RE HIRING

**CREATIVE, HANDS ON, CUSTOMER
FOCUSED, PASSIONATE, TECH
SAVVY, KNOWLEDGEABLE,
PROGRAMMER AND LIBRARY
PROFESSIONAL**

As the Creative Technologies Librarian at Aurora Public Library you will generate and deliver innovative programming that uses the specialty tools that we offer in our library's Creative Studio. You will introduce both the public and train staff on amazing tools like our laser cutter, 3D printer, digital embroidery machine, Cricut Maker, sewing machines, Adobe Suite software and more. Working alongside our Digital Literacy Assistant, your goal will be to get the community into this space and help them realize their creative dreams. From playing Minecraft to teaching coding, you will be hands on and play an important part in developing the wonderful technology this space has to offer.

You will also be the library's go to guru for all things eResources, from eBooks to online courses, you will work behind the scenes with library vendors to evaluate resources and ensure our customers have the best resources for their needs. As the digital library liaison you will keep staff informed on changes in our online collections and keep staff informed so they can provide customers with the best service we can offer.

Finally, as a library professional you will also be an important leader within our overall team and provide frontline, core library services to our customers. You will assist with reference and readers' advisory inquiries, collection development and provide exceptional customer service.

All of these things assembled to establish the role of Creative Technologies Librarian, a job title we want to fill with the best candidate for the role.
